Introduction

I am a web developer with a little over one year of experience.

I am comfortable and perform well in team-oriented work environments. Furthermore, I am committed to learning and evolving, both individually and collectively. I am a good communicator and capable of presenting ideas effectively, and I can communicate fluently in both Portuguese and English.

I particularly enjoy working with JavaScript technologies, focusing on front-end development. However, I am open to learning and contributing to back-end development when necessary.

Skills

JavaScript • React.Js • Vue.js • CSS • Tailwind-CSS • DaisyUI • Git • HTML • Nuxt.Js
Google Maps API • Jest • DBeaver • PostgreSQL • Docker • Figma • Pinia

Other Skills

Requirements gathering • Code review • Code evaluation • Advanced English

Education

State University of Midwest (Universidade Estadual do Centro-Oeste - Paraná - Brazil)
Bachelor's in Computer Science (2020 - 2024)

Experience

Intern - Web Developer

Palinha Musical App

November 2023 - May 2024 (Intern - Web Developer) - October 2024 (Web Developer)

I started as an intern during my college years and, after gaining some experience, I was officially hired as a programmer. I worked on the web front-end of the project throughout this period. Not only that, but I was responsible for:

- Contributing ideas for features for both web and mobile teams, with some being implemented in the project;
- Evaluating and reviewing code during hiring processes;
- Gathering requirements for a new web project, which involved a complete site refactoring;
- Bug fixing;
- General feature implementations.

University Project - Web Developer - UI/UX
HortiPrice
2023

Under the guidance of my advisor, Professor Giovane Galvão, I worked on his framework, *HortiPrice*, as part of my thesis. The objective was to refactor the project's front-end using UI/UX techniques. This was my first hands-on experience with JavaScript and practical UI/UX concepts, providing the foundation for the skills I later used in my internship and job.
